HossamEldin Mohammed Abdelwahab

Address: Kafer Eldawar - Beheira **E-mail:** hossammohammed2002h@gmail.com
Mobile: +201204791684 **Linkedin:** http://www.linkedin.com/in/Hossam2002

Objective

Highly motivated Electrical Power and Control Engineering undergraduate with practical training in industrial automation, PLC programming, HMI, and SCADA systems. Seeking entry-level opportunities to apply skills, contribute to industrial automation projects, and develop professional expertise in control and automation systems.

Education

Electrical Engineering (Power & Control) (2021 –Present)
Benha Faculty of Engineering – Benha - Egypt.

Internships & Practical Training

HA Consulting Group | Al-Abbasiya, Cairo Jul 2025 – Sep 2025

- Completed intensive training in **Siemens PLC** (Advanced Level) and hardware implementation.
- Designed and configured **SCADA** systems and **HMI** interfaces for industrial monitoring.
- Implemented **Industrial Communication Protocols** for synchronized system architecture.
- Executed a final integrated project combining PLC, HMI, and SCADA concepts.

MAM for Engineering Industries | El Obour, Qalyubia Jul 2025(3-Day Intensive)

- Gained hands-on experience at a certified **Schneider Electric** partner in **LV panel assembly** (Prisma & Spacial).
- Studied practical applications and selection of **MCB, MCCB, RCCB, and ACB** components.
- Observed the full production workflow, from sheet metal fabrication to final installation and testing.

ITIDA – Creative Hub | Benha Feb 2025(15-day intensive training)

- Conducted a technical field visit to the **Siemens Lab in the New Administrative Capital** to observe real-world industrial projects and advanced automation applications.

- Practiced PLC programming and digital sensor integration within a professional lab environment.
- Developed and tested automation logic and HMI dashboards.

Automation Control – Alex Training Center | Alexandria Jul 2024 – Sep 2024

- Mastered **Classic Control** systems and electrical circuit design.
- Programmed and configured **Siemens S7-1200 & S7-300** PLCs.
- Gained practical experience with **Motor Drives (VFDs)**, HMI, and system troubleshooting.

Technical SKILLS

Industrial Automation & Control

- PLC Programming (Ladder, STL, SCL, FBD, SFC)
- SCADA & HMI System Design & Integration
- Motor Drives & Communication Protocols
- IIOT System Design & Integration (NODE-RED)

Engineering Software Skills

- TIA PORTAL (Siemens)
- SIMATIC Manger (Siemens)
- KincoBuilder (Kinco)
- FACTORY IO
- Logix pro
- EKTS
- CADe
- Wincc Explorer
- Wincc Flexible
- PIStudio (Wecon)
- Vijeo Designer (Schneider)
- Node Red

PROFESSIONAL SKILLS

- Mastery of Microsoft Office (Word, Excel, PowerPoint).
- Excellent communication skills with a focus on team-building and customer relations

LANGUAGE COMPETENCIES

- Arabic : native language
- English: intermediate (speaking, reading, writing)
